"Small businesses form the backbone of the UK economy. Yet constraints on their time and resources mean they are least likely to develop the leadership and management skills that will help them grow. Leaders of small companies need to spend their time and money wisely, and see clear benefits from the start."

Julie Kenny, UKCES Commissioner

By taking part in this programme, yourself and other local organisations will be able to collaborate in the design of a new bespoke leadership programme, establish a new innovative network and have access to the North East's FabLab facility.

Recruiting Now!

Eligibility

We're looking for applications from small and medium-sized enterprises (SMEs) within the manufacturing or creative / cultural sectors with 50 employees or less.

Only limited spaces are available. Don't miss out on this amazing opportunity, apply today by contacting us on the details above.

The University of Sunderland and FabLab Sunderland are launching the LEAP programme, in collaboration with the UK Commission for Employment and Skills (UKCES), which focuses on encouraging small businesses to pilot new and innovative ways to increase productivity and boost leadership.

Please ensure you can attend one of the following dates below for the design day workshop:

- **Wednesday 27th January 2016**
- **Thursday 28th January 2016**
